Subject: RE: RA Briefing Info Request - ACTION ITEM DUE MAR 30

Yazmine,

EPA Initiates a Site Inspection (SI) of the Blades Groundwater Site, Blades, Delaware – March 26, 2018, OSRTI concurred with EPA's sampling plan to lead a SI assessment surrounding two facilities and in residential areas impacted by per- and polyfluoroalkyl substances (PFASs). OSRTI indicated the site qualified for a streamlined consultation and could proceed with screening the groundwater, soils and sediments for PFAS contamination. EPA will proceed with the SI and assessment of the shallow groundwater and rivers surrounding the public and residential wells that have been impacted with PFAS. (C. O'Loughlin, 4-3304)

Thank you.

Subject: RA Briefing Info Request - ACTION ITEM DUE MAR 30
Importance: High

Hi SAMs,

I need your help for Karen and Linda's RA briefing on April 11th.

The following sites have been identified for their briefing with the RA:

- Blades, DE - Connor
- Kinzua Tar Assessments – Justin
- Urban Lead/Philly Lead/former Smelter sites – Chris

Please prepare a salient/site update for your sites – 2-3 sentences max. **They are due to me by COB Fri, Mar 30th.**

Thanks,
Yaz
